

Hi! We're so glad you found us!

Centreville Preschool is a nonprofit, cooperative preschool that has served the Centreville community since 1969. We offer 2, 3, and 4-day half-day classes for children ages 2½ to 5 years old. Our experienced and nurturing teachers are dedicated to the play-based philosophy that makes our school so special! As Centreville's only cooperative preschool, parents are given the unique opportunity to have direct involvement in their child's early education. We offer full cooperative classes as well as non-cooperative classes, and we do not require children to be potty trained. We'd love for you to join our community and create, play, and grow with us!

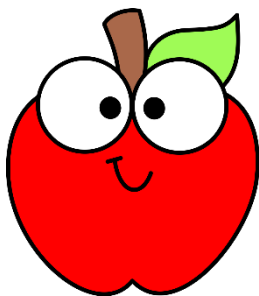

Our 2024-2025 Class Offerings

Beginners

Beginners is a gentle introduction to school for our youngest learners. Students must be age 2 ½, and this class is also appropriate for younger 3-year-olds who may benefit from extra support in the classroom. The small class size (maximum of 8 students) facilitates a cozy learning environment where children can develop some of their first friendships. Beginners is a School Cooperative program; we have a staff aide in the classroom, so parents do not volunteer as the Parent Aide, but they do participate in committees and maintenance/cleaning obligations.

Threes (2-Day and 3-Day)

Our Threes program focuses on helping children develop strong social skills and positive feelings about themselves and school. Our play-based curriculum includes lots of imaginative play, sensory exploration, art, games, songs, and more. Threes classes explore seasonal themes, as well as working on name recognition, colors, shapes, numbers 1-10, and other pre-academic skills. This is a Cooperative class, and parents take turns volunteering in the classroom as the Parent Aide.

Fours

Our Fours curriculum prepares students for kindergarten by developing strong social skills, helping them become more independent at school, and teaching foundational pre-academic skills through play. Students will explore seasonal themes, as well as pre-academic skills, such as alphabet recognition, sequencing, counting, sorting, patterns, and fine-motor skills. Students will develop social skills, strengthen their problem-solving abilities, and explore their creativity in a rich play environment. This is a Cooperative class, and parents take turns volunteering in the classroom as the Parent Aide.

PreK

Both Fours and PreK prepare students for kindergarten, but PreK is a good option for children who are ready for a little more. Both curricula are play-based, but PreK goes a little deeper and provides additional challenges for our older 4s. Students will develop social skills, strengthen their problem-solving abilities, and explore their creativity in a rich play environment. In addition, students will enjoy the special experience of eating lunch with their friends, which is great practice for kindergarten! Some families whose children have late birthdays may choose to delay kindergarten and enroll in PreK after completing Fours. This is a Cooperative class, and parents take turns volunteering in the classroom as the Parent Aide.

Wonder Workshop

This exciting NEW Enrichment class teaches children to explore their world with imagination, innovation, and most of all, fun! Students will be introduced to science concepts and experiments through a combination of art exploration and literacy activities. This class is designed to encourage children to ask questions, make observations, and experiment with different materials. Follow your curiosity to Wonder Workshop every Friday morning!
